

# Scholarliness

Scholars have many or all of these characteristics. Scholars strive to strengthen these traits.

Scholars come with a half a “cup” of knowledge ready to learn more. They practice academic humility!

Scholars take intellectual risks. They think “outside of the box”

Scholars ponder ideas.

Scholars take pride in the quality of their work!

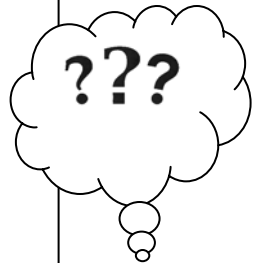

Scholars look at the world using many perspectives

Scholars have questions and want to seek the answers.

???

Scholars are ready with the supplies and tools needed to learn more.

Scholars save ideas.

Scholars exercise their intellect. They learn to persevere.

Scholars have goals they want to reach; short term goals & long term goals.

Scholars use a variety of resources and references.
